Anchor Innovation, Inc. (Anchor) is a Service-Disabled Veteran-Owned Small Business (SDVOSB) based in Virginia Beach, VA, with over 20 years of experience delivering specialized maritime services to the U.S. Navy, Coast Guard, special operations forces, and allied navies. Staffed by seasoned mariners, certified technicians, and former military professionals, we bring real-world expertise to expeditionary operations. From fleet modernization to Naval Special Warfare support to partner-nation training, Anchor delivers mission-ready solutions that enhance capability, ensure safety, and build lasting capacity.

Core Competencies

Operations & Exercises

Supports operational units with planning, execution, and real-time maritime exercise support. Backed by deckplate experience, we help shape missions to meet today's evolving maritime threats and requirements.

Maintenance & Modernization

Provides full-spectrum maintenance and Modernization for Navy and DoD small craft, including hull, mechanical, and electrical systems. Known for technical precision and reliability, our work ensures mission-ready platforms across the fleet

Testing & Evaluation

Supplies hands-on support for system integration, prototyping, and platform testing. We validate new technologies, support combat evaluations, and deliver actionable insights that drive safe, effective fleet adoption.

Training & Readiness

Delivers exportable and instructor-led training in navigation, ship-handling, UNREP, and force protection. Our veteran instructors bring operational relevance to every evolution, ensuring crews are prepared for real-world missions.

Supporting Efforts

- Maritime SOF Support 2.0 – small craft maintenance, training, ops, T&E
- NSWC NEXT-PII – maritime exercise & training support
- sUSV – testing, maintenance & training
- NSWC CCD – engineering & marine services
- CNRSW & CNRMA – small craft maintenance & operations
- NSW SBT-12 & NSW BTC – SpecWar 11-MRB overhauls
- CENSECFOR – small craft maintenance, repair & overhauls
- USAF 45th Space Wing – NASA recovery ops & training
- MESH-1 – training & evaluation support
- SWOS – navigation, seamanship & ship-handling training
- MSC – operations, seamanship & ship-handling, and UNREP
